# UMWELT UND VERANTWORTUNG

---

## **Welscheit GmbH - HuH Mosaik wird grün - Der Umwelt zuliebe**

Für uns, als einer der führenden lagerhaltenden Importeuren Europas, spielt der verantwortungsvolle Umgang mit der Umwelt schon immer eine große Rolle. Aufgrund dessen, haben wir verschiedene nachhaltig produzierte Artikel in unserem Sortiment. Eco Glas (recycltes Glas) oder die Nutzung von nachwachsenden Rohstoffen (wie z.B. Holz), waren ein erster großer Schritt den wir in diese Richtung schon vor Jahren gegangen sind. Diese Holzprodukte sind ausschließlich FSC zertifiziert. Neben diesem verwenden wir in Upcycling Prozessen auch altes Holz aus geborgenen Schiffswracks. Mit dem Bau der neuen weiteren Lagerhalle, wurde der Gedanke an die CO2 Neutralität noch weiter forciert. Darum haben wir diese mit einer 99kw starken Photovoltaik Anlage ausgestattet und unsere Parkplätze für Elektro-Firmenfahrzeuge mit entsprechenden Ladesäulen versehen. So können wir über 70 Prozent unseres Strombedarfs durch eigene Produktion decken. Das Aufladen der Autos, Gabelstapler, die Klimaanlage und/oder Bürotechnik werden durch die Kraft der Sonne mit Strom versorgt.

## **Gut für uns, gut für Sie !**

CO2 neutraler Versand, sowie Verpackung aus recycleten Materialien gehören für uns schon lange zum Standard. Außerdem versenden wir unsere Pakete nur mit einem Höchstgewicht von 20kg pro Paket, um unsere Mitarbeiter, die Auslieferungsfahrer der Paketdienste und auch Sie persönlich zu schonen.

Wir als Welscheit GmbH möchten noch weiter grüner und nachhaltiger werden. Deswegen sind wir aktuell auf dem Weg zum papierlosem Büro, was unter anderem eine verbesserte Digitalisierung und den elektrischen Versand von Rechnungen und Auftragsbestätigungen beinhaltet.

## **CO2 Neutralität & Nachhaltigkeit hören nach dem Feierabend nicht auf!**

Weswegen wir als Welscheit GmbH auch verstärkt auf das Job-Bike Angebot setzen, sodass unsere Mitarbeiter mit einem E-Bike schnell, günstig und sauber zur Arbeit kommen können.

## **Wir stehen hinter unseren Mitarbeitern!**

Als mittelständische familien- und inhabergeführtes Unternehmen, steht die Sorgfaltspflicht gegenüber unseren Mitarbeitern an oberster Stelle. So sorgen wir für eine familiäre und nahbare Arbeitsatmosphäre und bezahlen all unsere Mitarbeiter in Anlehnung an den Tarifvertrag. Darüber hinaus bieten wir diverse Boni, wie VWL, kostenlose Getränke und Kaffee und die Möglichkeit zu einer warmen Mahlzeit am Mittag.

## **Sicherheit liegt uns am Herzen!**

In einem ganzheitlichen Konzept, wirken wir mit diversen Fachkräften wie z.B Arbeitssicherheitsbeauftragte, Datenschutzbeauftragte und eigens ausgebildete Mitarbeiter auf die präventive digitale, psychische und physische Unversehrtheit unserer Kollegen und Ihrer Daten ein.

In enger Zusammenarbeit mit dem Arbeitsschutz und die für uns zuständigen Berufsgenossenschaft, stellen wir regelmäßig bestehende Konzepte auf den Prüfstand, hierzu bilden wir selbstverständlich auch unsere Mitarbeiter nach höchsten Standards zu Ersthelfern und Lebensrettern in der Not aus, aber auch zu Brandschutz- & Evakuierungshelfern. So stellen wir sicher, dass rund um die Uhr um für ein größtmögliches Maß an Sicherheit gesorgt ist.

Diese notwendigen und strengen Kriterien gelten aber nicht nur für unsere Mitarbeiter sondern auch für die Mitarbeiter unserer Lieferanten. Durch unsere mehr als 60-jährige Lieferbeziehung zu einigen wichtigen Hauptwerken, stellen wir ebenfalls sicher, dass das Lieferkettengesetz entsprechend eingehalten und umgesetzt wird. Faire Arbeitsbedingungen und die Einhaltung entsprechender ortsüblicher Mindestlöhne, das Verbot von Kinderarbeit an den jeweiligen Produktionsstätten sind eine Grundvoraussetzung für unsere Zusammenarbeit.

# ENVIRONMENT AND RESPONSIBILITY

---

## Welscheit GmbH - HuH Mosaik goes green - For the good of our environment

For us, as one of the leading stockholding importer in Europe, the responsible treatment of the environment has always played a major role.

Because of this, we have several sustainably produced items in our assortment. Eco glass (recycled glass) or the use of renewable raw materials (such as wood). These were the first big steps, we have taken in this direction years ago. Our products are exclusively FSC certified.

Besides this we also use old wood from salvaged shipwrecks in upcycling processes.

With the construction of the new additional warehouse, the idea of CO2 neutrality was pushed even further. That's why we equipped it with a 99kWh photovoltaic system and provided our parking spaces for electric company vehicles with charging stations. This allows us to cover over 70 percent of our power consumption through our own production. The charge of our cars, forklifts, air conditioning and/or office equipment is powered by the sun.

## Good for us, good for you!

CO2 neutral shipping, as well as packaging made of recycled materials have been a standard for us for a long time. In addition, we send our parcels only with a maximum weight of 20kg per parcel, in order to protect our employees, the delivery drivers of the parcel services and also you. Welscheit GmbH wants to become even greener and more sustainable.

Therefore, we are currently on the way to a paperless office, which includes, among other things, an improved digitalization and the electric dispatch of invoices and order confirmations.

## CO2 neutrality & sustainability don't stop after work!

We at Welscheit GmbH are also increasingly focusing on the job bike offer, so that our employees can get to work quickly, cheaply and cleanly on an e-bike.

## We stand behind our employees!

As a mid tier family and owner-managed company, the duty of care towards our employees is our top priority. Thus, we provide a familiar working atmosphere and pay all our employees in accordance with the collective agreement. In addition, we offer various bonuses, such as capital forming benefits, free drinks and coffee and the possibility of a hot meal at lunchtime.

## Safety is an affair of the heart!

In a holistic concept, we work with various specialists such as safety officers, data protection officers and specially trained employees on the preventive digital, psychological and physical integrity of our colleagues and your data.

In close cooperation with the occupational safety and health department and the employers' liability insurance association we regularly test our concepts.

To this end, we naturally train our employees to the highest standards to become first-aiders and lifesavers in an emergency, as well as fire protection and evacuation assistants. In this way, we ensure that the highest possible level of safety is provided around the clock.

However, these necessary and strict criteria do not only apply to our employees, but also to the employees of our suppliers. Through our more than 60-year supply relationship with some important main suppliers, we also ensure that the Supply Chain Act is fulfilled and implemented. Fair working conditions and compliance with corresponding local minimum wages, the prohibition of child labor at the respective production sites are a basic requirement for our cooperation.

Um unsere Produkte stets bestmöglich für Sie zu präsentieren, produzieren wir eigens für Sie eine große Auswahl an Produkt- und Stimmungsbildern, Produkt- und Verlegevideos. Darüber hinaus stellen wir Verlegeanweisungen in schriftlicher Form, die den Produkten beigelegt und auch online unter [www.mosaikinfo.de](http://www.mosaikinfo.de) abrufbar sind, zur Verfügung.

Ergänzend nutzen wir die modernen Möglichkeiten der Visualisierung, um mit entsprechenden Installationsvideos die Montage zu unterstützen.

60 Jahre HuH-Mosaik -  
60 Jahre voller Einsatz für Sie!

Vom selbstgemachtem Blumenhocker bis zu einem der führenden Mosaikimporteuren Europas. Alles begann mit selbstgebauten Blumenhockern und der Suche nach dem dafür passenden Mosaik. Unter dem Markennamen HuH-Mosaik sind wir auf dem europäischen Kontinent vertreten. Zuerst mit dem Gründungsstandort in Meinerzhagen und dann ab 2006 am verkehrsgünstigen Standort in Drensteinfurt, zur Nutzung des wichtigen Logistikvorteils. Langjährige Lieferbeziehungen zu Lieferanten und Kunden, stehen sinnbildlich für die Konstanz, Qualität und Zuverlässigkeit, die hinter dem inhabergeführten Familienunternehmen stehen. Daher ist das 60-jährige Markenjubiläum für uns als Welscheit GmbH etwas ganz besonderes. Dies möchten wir mit diesem neuen und umfangreichen Gesamtkatalog gemeinsam feiern. Auf die nächsten 60 Jahre!

## Darf es puristisch sein?

Die **HUH** Mosaik Architekturserie besteht aus 4 Steinformaten (23x23/23x48/48x48/98x98mm) und aus 5 klassischen Farben in glänzend und matt. Gestalterisch passen die Formate im Fugenschnitt zusammen und erlauben hierdurch unzählige Kombinationsmöglichkeiten.

Die Serie wird teilweise in einigen Farben lagermäßig durch weitere Steinformate (22x78mm/23x48&10,5x10,5mm), Netzanordnungen und Farbmischungen ausgeweitet. Selbstverständlich sind bei Bedarf auch diverse andere Kombinationsmöglichkeiten in Farb- und Mountingvarianten mit zusätzlicher Lieferzeit erhältlich.

## May it be puristic for you?

The **HUH** mosaic architecture series is based on 4 stone formats (23x23/23x48/48x48/98x98mm) and on 5 classical colours in glossy and matt. Creatively seen, all formats fit with the joint linings and allow infinite possibilities of combinations.

The series gets already enlarged in some colours by further stone formats (22x78mm/23x48&10,5x10,5mm) different mounting variations and colour mixes.

Of course, you can get on request further other combinations and colour/mountings with additional delivery time.

## **Rutschhemmendes/trittsicheres Mosaik nach DIN 51130**

**Trittsichere Oberflächen wirken präventiv zur Unfallverhütung. Zur konkreten Beurteilung der Sicherheit des jeweiligen Mosaikes, werden diese in folgende Kategorien eingeteilt: R9 - R13. Die Testperson geht mit einem definierten Arbeitsschuh über einen befeuchteten Belag, der nach und nach angehoben wird und zwar solange, bis die Person unsicher wird und den Halt verliert. Anschließend wird der erreichte Neigungswinkel gemessen und den folgenden Klassen zugeordnet:**

### **Non-skid/Slip-proofed mosaic according DIN 51130**

Slip-proofed surfaces have a preventive effect for accidents. For a concrete security assessment, the mosaics are divided into the following categories: R9 - R13. The subject walks over a wet flooring with a defined working shoe. The flooring gets raised little by little, until the person gets insecure or loses the grip. At the end the angle of inclination is measured and assigned into the following classes:

**R9: Geringer Haftreibwert/ low coefficient of friction**  
**Trittsicher bis zu einem Neigungswinkel von 3-10°.**  
Slip-proofed up to an angle of inclination from 3-10°.

**R10: Normaler Haftreibwert/ normal coefficient of friction**  
**Trittsicher bis zu einem Neigungswinkel von 10-19°.**  
Slip-proofed up to an angle of inclination from 10-19°.

**R11: Erhöhter Haftreibwert/ better coefficient of friction**  
**Trittsicher bis zu einem Neigungswinkel von 19-27°.**  
Slip-proofed up to an angle of inclination from 19-27°.

---

## **Rutschhemmendes/trittsicheres Mosaik nach DIN 51097**

**Die Prüfung erfolgt ähnlich zur DIN51130 mit dem Unterschied, dass die Person keinen definierten Arbeitsschuh trägt, sondern barfuß ist.**

### **Non-skid/Slip-proof+ed mosaic according DIN 51097**

The test is similar to DIN51130 with the only difference that the subject is barefoot instead of wearing a working shoe.

**A: Für trockene Böden bis zu einem Neigungswinkel von 12-18°.**  
A: For dry floors up to an angle of inclination from 12-18°.

**B: Für nasse Böden bis zu einem Neigungswinkel von 18-24°.**  
B: For wet floors up to an angle of inclination from 18-24°.

**C: Für Schwimmbäder ab einem Neigungswinkel ab 24°.**  
C: For baths up to an angle of inclination starting at 24°.

## PUR Verklebung - komplett ohne Netz

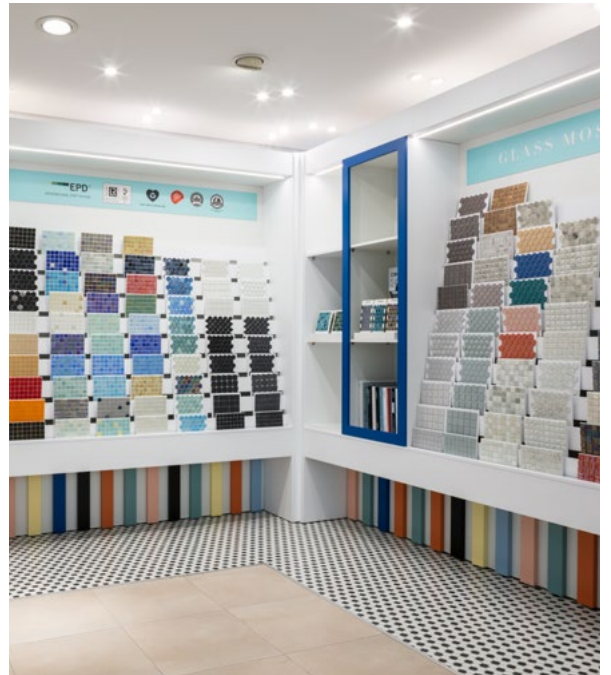

Im Gegensatz zum klassischen Poolmosaik, ist das Vidrepur Pool Mosaik nicht papierverklebt. Die Steine werden einzeln rückseitig miteinander punktverklebt, sodass auch hier eine vollflächige Haftung an der Poolwand gewährleistet ist (siehe Bilder oben).

## PUR glued - without a mesh

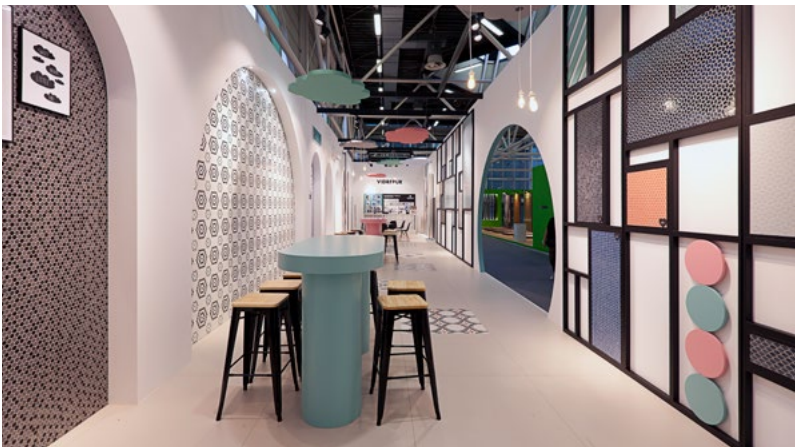

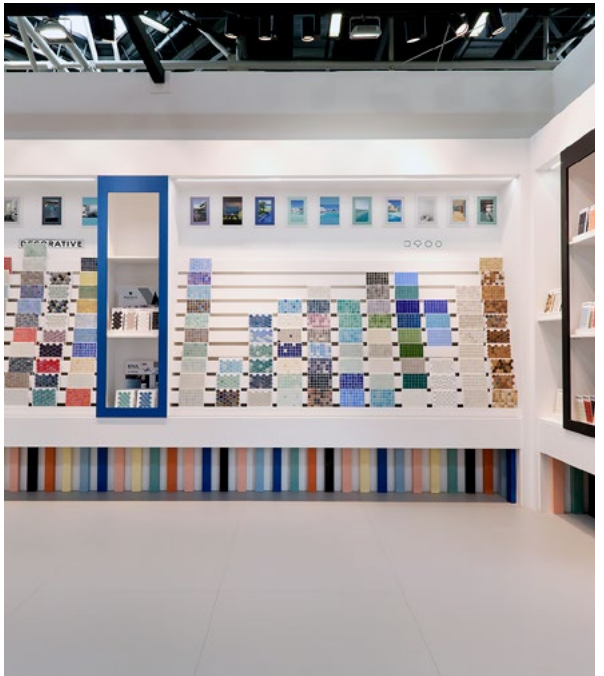

In contrast to classical pool mosaic, the Vidrepur pool mosaic is not paper mounted. The stones get individually spot glued to each other on the backside of the sheet, to ensure a fully adhesion on the pool wall (see pictures above).

## Sommerzeit ist Pool Zeit!

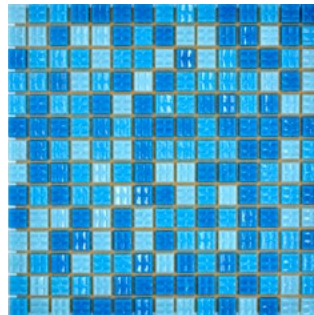

Die **HUH** Mosaik Poolserie (papierverklebt) besteht aus vier verschiedenen großen Poolbildern in der zeitlos eleganten Poolfarbmischung. Im Gegensatz zu netzverklebten Mosaiken besitzt diese Variante eine vorderseitiger Papierverklebung, sodass das Material/die einzelnen Steine noch besser und fester im Fliesenkleber haften.

Summer Time is pool time!

The **HUH** mosaic „pool series“ (paper mounted) contains of four different pool motives in a timeless elegant colour mix. In contrast to the net mounted mosaics, this variant is paper mounted in order to make sure, the material fits better to the grouting.

### Warum Papierverklebt?

Der Wegfall des rückseitigen Mosaiknetzes führt dazu, dass einzelne Mosaiksteine noch besser am Fliesenkleber haften.

Why paper mounted?

The elimination of the backside mosaic net gives a better adhesive effect to each single mosaic stone.

## Verlegehinweis Papierverklebung/ Installation guide for paper mounting

### Papierverklebt? Kaum Mehraufwand!

Traditionell wurde Mosaik immer vorderseitig papierverklebt. Tragen Sie wie gewohnt den Fliesenkleber auf die gewünschte Fläche auf und pressen Sie die Mosaikmatte gleichmäßig und fest an. Feuchten Sie nun mit einem Schwamm das Papier von außen an und ziehen Sie es ab - fertig!

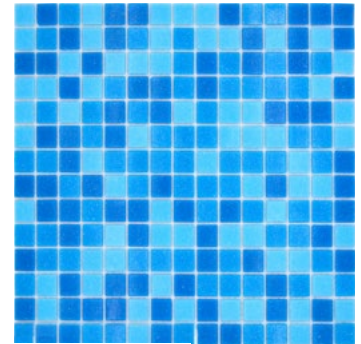

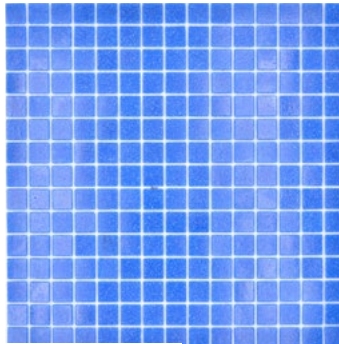

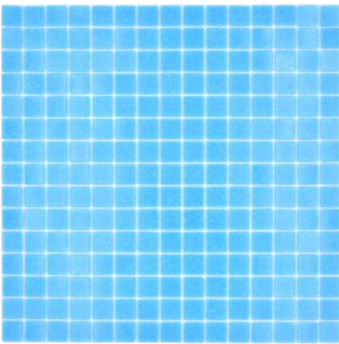

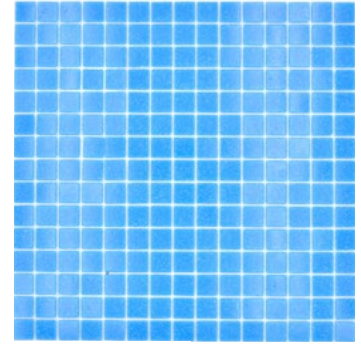

### Paper mounted? Barley extra effort!

Traditionally, paper mounted mosaic has always been installed. Use grouting as usual and press the mosaic sheet evenly and firmly. Now, just moisten the paper with a sponge and peel it off slowly - finish!

## Rückseitig netzverklebtes Mosaik!

Zusätzlich können auch rückseitig netzverklebte keramische und Glas Mosaik im Dauernassbereich (Pool) verwendet werden, sofern der Hersteller diese Anwendung freigegeben hat und ein geeigneter System-Materialaufbau mit passender Bauchemie erfolgt. Die entsprechenden Mosaik sind mit dem Piktogramm „Dauernassbereich“ im Katalog gekennzeichnet. Hierzu empfehlen sich rein Epoxy basierte Aufbauten, um eine vollflächige Verklebung und Verfugung zu gewährleisten und dem Material größtmöglichen Schutz zu bieten. Die Verwendung ist in einigen europäischen Ländern gestattet, in Deutschland müssen wir aber darauf hinweisen, dass das „ZDB Merkblatt Schwimmbadbau“ beachtet werden sollte und der Einbau von netzverklebten Mosaiken ohne Gewähr erfolgt.

## Backside mesh mounted mosaic!

In addition, ceramic and glass mosaics that are backside mesh mounted can also be used in permanently wet areas (pools), if the manufacturer has approved this application and a suitable system material structure with suitable construction chemicals is used. The corresponding mosaics are marked in the catalog with the pictogram „permanently wet areas“. For this purpose, purely epoxy-based structures are recommended in order to ensure full-surface bonding and jointing and the greatest possible protection for the material. Usage is in some European countries common, but in Germany we have to point out that the „ZDB information sheet for swimming pool construction“ should be noted and the installation of mesh-glued mosaics is carried out without guarantee.

# Serie/Series Foil

## Folien hinterlegtes Mosaik

Die Kreation von folienhinterlegtem Glas, sorgt für eine zauberhafte Blattoptik mit mystischer Struktur und einzelnen feinen Verästelungen.

**Hinweis:** Mosaik nicht dem direkten Sonnenlicht aussetzen und die Rückseite nach Verlegung vor Wasserberührung schützen, sonst sind Farbänderungen an der Folie möglich.

## Foiled mosaic

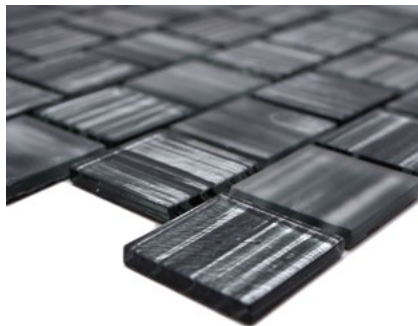

The creation of foiled glass creates a beautiful leaf optic with mystical structures and single finely ramifications.

**Note:** Do not expose this mosaic to direct sunlight and protect the backside from contact with water after installation or colour changes at the foil may occur.

## Schützen Sie Wertvolles!

Wenn Sie sich dafür entscheiden, Ihre Wohn- & Lebensbereiche mit einem hochwertigen und einzigartigen Naturprodukt zu veredeln, sollten Sie dieses auch entsprechend schützen. Imprägnieren Sie die Natursteinmosaik oder Fliesen zum Fleck- & Färbungsschutz nach der Verlegung und vor der Verfugung mit einem natursteingeeigneten Fleckschutz. Sofern eine farbkraftige Oberfläche gewünscht wird, ist die Fläche nach der Verfugung mit einem natursteingeeigneten Farbvertiefer zu behandeln. Beispielfotos finden Sie zur Veranschaulichung nachfolgend.

## Protect the valuable!

If you choose to furnish your living areas with a high-quality and unique natural product, you should also protect it accordingly. Impregnate the natural stone mosaic or tiles with a stain protector suitable for natural stone, for protection against stains and to protect the colour, after laying and before grouting. If a more coloured surface is desired, the area has to be treated with an colour enhancer suitable for natural stone, after grouting. See photos with examples below for illustration.

## Hinweise/Notes

Bitte beachten Sie, dass es sich bei Natursteinmosaik, -fliesen, -platten, -rosenzen, -bordüren um ein Naturprodukt handelt. Daher kann es beim Abbau und bei der Herstellung des Materials zu natürlich bedingten Farbabweichungen und Schwankungen kommen. So können auch die zur Verfügung gestellten Muster und/oder Bildmaterialien Abweichungen zur tatsächlich gelieferten Ware aufweisen. Dies stellt keinen Mangel dar.

Bei unserer Naturstein-Antikserie, werden die rustikal getrommelten Kanten durch Einlage in eine Trommel, mithilfe von Kieseln und keramischen Bodies, durch drehende Bewegungen erzeugt. Bei diesem Prozess kann es zu linsenartigen Abplatzungen des Materials kommen. Das Ergebnis des antikisierens ist in der Materialstruktur bedingt. Die Oberfläche ist auch an der Ausplatzung antik weich und nicht rauh gespalten.

Im Gegensatz zu Marmor, weisen die Travertin Sorten darüber hinaus auch große offenporige Oberflächen auf, dies ist bei Travertin normal und gewünscht. Darüber hinaus, finden sich wie bei Marmorsteinen ebenfalls auch Erzadern und sonstige geologische Einschlüsse.

Please note, that natural stone mosaic, tiles, plates, rosettes and borders are a product from nature. Therefore, there may be natural colour deviations and fluctuations during the dismantling and production of the materials. that is why our samples and/or provided images may also differ from the actually delivered goods. It does not constitute a defect.

The rustic tumbled edges of our natural stone antique series are made in a rotating trommel with the help of pebbles and ceramic bodies. During this process lenticular spallings may occur.

The result of the aging process is given by the structure of the material.

The surface is at the spalling has still an antique soft and not a rough cleaved touch.

In contrast to marble, the travertine varieties also have large open-pored surfaces, which is normal and desired for travertine. In addition, there are also ore veins and other geological inclusions like in marble stone.

## Selbstklebendes Mosaik - Do it Yourself!

Noch nie war Mosaikkleben so einfach wie heute.

Bei dem Move&Improve Mosaik handelt es sich um selbstklebendes Mosaik, welches auch für den unerfahrenen Anwender kinderleicht anzubringen ist. Die rückseitige Trägerfolie wird einfach abgezogen und das Mosaik anschließend auf einer geraden ebenen Wand geklebt.

Je nach Sorte, muss das Mosaik anschließend noch verfugt und/oder mit einer entsprechenden Silikonfuge an Kanten abgeschlossen werden.

Genauere Informationen zur Verlegung und ein entsprechendes Video finden Sie auf der Internetseite.

## Self-Adhesive Mosaic - Do it Yourself!

Sticking mosaic tiles has never been so easy.

Our Move&Improve Mosaic is a self-adhesive mosaic which can also easily be used by unexperienced persons.

# PEEL & IMPRESS

1. Abziehen/Peel off

2. Aufkleben/Stick on

## Selbstklebendes Vinyl-Mosaik - Do it Yourself!

Noch nie war Mosaikkleben so einfach wie heute.  
Bei dem Peel&Impress Vinyl-Mosaik handelt es sich um selbstklebendes Mosaik, welches auch für den unerfahrenen Anwender kinderleicht anzubringen ist. Darüber hinaus ist es jederzeit rückstandslos z.B mit einem Haarfön entfernbar. Die rückseitige Trägerfolie wird einfach abgezogen und das Mosaik anschließend auf einer geraden ebenen Wand geklebt. Das Vinyl-Mosaik muss anschließend mit einer entsprechenden Silikonfuge an den Kanten abgeschlossen werden. Genauere Informationen zur Verlegung und ein entsprechendes Video finden Sie auf der Internetseite.

## Self-Adhesive Vinyl-Mosaic - Do it Yourself!

Sticking mosaic tiles has never been so easy.  
Our Peel&Impress Vinyl-Mosaic is a self-adhesive mosaic which can also easily be used by unexperienced persons. Added to this you can peel it off without any residue (e.g. with a hair dryer) at any time. Remove the protective paper from the adhesive sheet and simply stick it on a straight even wall. The Vinyl-Mosaic has to be sealed with silicone on all borders afterwards.  
You can find further instructions and a video on our internet site.
